

Fire Alarm/Detection System

This afternoon part of the school was struck by lightning which disabled our fire alarm system. Engineers will attend tomorrow morning but we cannot open without a functioning fire detection system.

Unfortunately school will not be open tomorrow (2/10/19) as it is not safe for children to be here without a functioning fire detection system and alarm.

We will let you know about Thursday as soon as we can.

Thank you for your continued support.

F Marsh
